

**Directions for “Shopping lists”**

The “Order information” menu on the existing “My account” page now has a new “Shopping lists” function.

Online shop > my APSOparts > Shopping list management

**my APSOparts**

<b>Order data</b>	<b>Product data</b>	<b>Account information</b>	<b>User data</b>
Shopping list management Upload order Downloads		Your orders	Your registration details Your delivery addresses
<b>Shopping list management</b>			
Saved shopping lists: <input type="checkbox"/> Delete after transaction <input type="button" value="Add shopping list"/> <input type="button" value="Selection into the shopping cart"/>			
No saved shopping lists available			

Shopping lists offer customers the chance to bookmark items and save them. They are then displayed as a list.

In order to add items to a shopping list or to create a new shopping list, please note the following points:

1. Customers must already be logged in.
2. The desired quantity must be entered in the "Quantity" field.
3. Clicking on the letter icon will open the "Save item in shopping list" field.
  - a. If a customer wishes to create a new shopping list, the button "Add to shopping list" must be clicked. Please enter a name, click on the "Add" button, and the item will be added to the new shopping list.
  - b. If a customer wants to add the item to an existing shopping list, the desired shopping list must be selected from a drop-down list. As soon as the "Add" button is clicked, the item will be added to the shopping list.
4. Clicking on the "To my APSOparts" link allows access to a secure area where shopping list can be managed.

Also, the functions “Delete order item,” “Change order quantity,” and “Add entire shopping list to shopping cart” are available.

Shopping lists within one account – in other words, one company – can be viewed, changed, or transferred to a shopping cart by all users from that company. In addition, a reminder date can be entered using the calendar function and the customer will receive a reminder email about the shopping list on that date.

Further functions:

- Selected shopping lists can be added to the shopping cart. Shopping lists can also be deleted after being added.
- Additional items can be added directly to the desired wish list by entering the Angst+Pfister item number and the desired quantity.
- The selected wish list can also be printed or saved as a PDF using the “Print” button.
- Existing shopping lists can also be edited, e.g. the name of the wish list can be changed, or the order quantity can be adjusted.
- A customer can also create a message about an order. As soon as the wish list is added to the shopping cart, the message will also be added to the shopping cart’s message field.
